PAKISTAN

People that contracted polio in 1988 when the fight to end this disease began.

**\$.60**

60 cents is the cost of protecting one child from polio.

Reaching the final 1% of children is the most difficult because polio still exists in some of the most challenging parts of Africa and Asia.

Polio is **99%** of the way to being **eradicated!**

**2.5**  
Billion

Children immunized globally since 1988. That is an average of 3.3 children a second!

**5**

The majority of children that contract this crippling disease are under the age of 5.

**\$40–\$50**  
Billion

The estimated amount of money polio eradication will save the world over the next 20 years.

After more than 25 years we are “this close” to making history by eradicating polio. With this historic achievement, polio will be only the second human disease in history -after smallpox- to be eradicated worldwide.
